

Key Stage 5: Year 12 Fine Art

Overall Curriculum Goals

to develop practical and theoretical knowledge and understanding of:

relevant materials, processes, technologies and resources
 how ideas, feelings and meanings can be conveyed and interpreted in images and artefacts
 how images and artefacts relate to the time and place in which they were made and to their social and cultural contexts
 continuity and change in different genres, styles and traditions
 a working vocabulary and specialist terminology.

Courses based on these specifications must require students to develop the skills to:

record experiences and observations, in a variety of ways using drawing or other appropriate visual forms; undertake research; and gather, select and organise visual and other appropriate information
 explore relevant resources; analyse, discuss and evaluate images, objects and artefacts; and make and record independent judgements
 use knowledge and understanding of the work of others to develop and extend thinking and inform own work
 generate and explore potential lines of enquiry using appropriate media and techniques
 apply knowledge and understanding in making images and artefacts; review and modify work; and plan and develop ideas in the light of their own and others' evaluations
 organise, select and communicate ideas, solutions and responses, and present them in a range of visual, tactile and/or sensory forms.

Students can work entirely in digital media or entirely in non-digital media, or in a mixture of both, provided the aims and assessment objectives are met.

CIAG

Through the very nature of the projects in Fine Art, pupils are exposed to a wide range of artists, craftspeople and designers which gives opportunities to discuss career options within the creative industries. WE also have strong links with Oldham College Foundation Course and given the number of past pupils on creative degree pathways we try to include them in our CIAG by sharing creative social media platforms or having them in to run workshops relating to their specialism when possible.

Key Stage 5: Year 13 -Fine Art

Overall Curriculum Goals

Knowledge and Understanding: Students should show knowledge, understanding and skills in the development of their personal work informed by first-hand experiences and appropriate secondary sources. Students should be encouraged to progressively develop their own strengths and interests in the subject and, increasingly, follow their own lines of enquiry. Students must develop the knowledge and understanding as specified below through sustained practical application of skills to realise personal intentions. Students must learn how sources inspire the development of ideas. For example, drawing on: • the work and approaches of artists, craftspeople or designers from contemporary and/or historical contexts, periods, societies and cultures • contemporary and/or historical environments, situations or issues
